(Copyright, 1928.) An architect, aged fifty, is found wandering, unable to tell who he is, or where he lives. That "amnesia" interests us. We forget that the billion and a half human beings on earth ALL have amnesia.

Who ARE you, really? Where were you 100 years ago? Where will you be, and where will you live 100 years from now? What we call "conscious life" is just a flash of consciousness in eternity. Amnesia victims often have such flashes.

At Nice, where in winter the idle from all over the world walk on the Promenade Des Anglais, men sell tiny birds like parrots, beautifully colored, wonderfully tame. They sit on a little stick held in your fingers, and never fly away.
A woman has discovered that

the entire taming process consists in putting out the poor creatures eyes. Seeing nothing, they fear everything, fear especially to lose their hold on that little stick.

That is how we feel about this earth; blind to what is beyond it, we cling on desper-ately. If we could see beyond and know what is outside, should we fly away in millions, through the doors of death, as those poor birds would fly, if they could see?

A new poem by John Milton is discovered. Written early, it probably has little value. But millions will read it in newspapers, if it is short enough, while, of every ten able to read, nine certainly know nothing of Milton's real

Better than discovering something new by a great poet would be to make the great poets "discover" a few hundred millions of the empty brains.

Advertising men should read some letters written by Milton for Cromwell, when Milton was Cromwell's secretary, also his slam-bang discussion with a certain Dutchman. They'd find there the "kick" that they long to get in their style.

# Watchman Bound and Gagged

While Old Whiskey Is Loaded Into Autos.

Traveling with a motor caravan and armed motorcycle scouts, twenty armed bandits early today swooped down on the Old Horsey Distillery, near Frederick, Md., and made off with \$84,000 worth of choice old whiskey, leaving three Government watchmen bound and gagged, under threat of instant death if they attempted to raise an alarm.

Beyond the fact that an aban doned truck, laden with seventeen barrels of the stolen whiskey, was found eight miles from Frederick, on the Baltimore pike, there is no clue to the direction taken by the caravan. It is thought the truck train may have broken up, portions of the loot being taken toward Washington, Baltimere and Philadelphia.
